PROFILE

Motivated with a strong work ethic and a passion for fitness and teamwork. Committed to personal growth both in and out of the gym, balancing coding with an active lifestyle. Known for reliability, resilience, and a positive attitude, especially in challenging situations. Experienced in leading group projects and contributing to team success, with a strong sense of responsibility and a natural ability to motivate others. Skilled in time management and quick to adapt to new roles, making me well-suited for dynamic work environments. Eager to apply my energy, dedication, and problem-solving abilities to coding opportunities.

PROJECTS

Growix <https://www.growix.lt/>

- Developed **Growix**, a custom website for a client in Lithuania, designed to serve as a centralized platform for the dance community. The platform enables dancers, groups, and companies to create accounts, publish their upcoming seminars, and promote their events to a broader audience.
- The website also allows users to register, search for seminars, engage with posts by liking them, and explore additional events from various creators. This project strengthened my skills in building interactive, user-driven platforms and delivering tailored solutions that meet specific client needs.

WingSearch <https://wingsearch.vercel.app/>

- A comprehensive flight-search platform that allows users to create accounts and find flight tickets across multiple airlines, similar to the functionality of Skyscanner. WingSearch also integrates flight-tracking features inspired by services like FlightRadar. This project enhanced my ability to build data-driven websites with API functions.

Portfolio <https://portfolio-self-five-31.vercel.app/>

- Built a personal portfolio website designed with modern neon-inspired visuals to showcase my skills and provide an easy way for potential clients or collaborators to contact me. This project served as a hands-on opportunity to strengthen my React, Node.js, Express, and Tailwind CSS abilities. By crafting both the frontend experience and backend functionality.

EXPERIENCE

Freelance Full-Stack Engineer	Growix (Client Project)	Aug 2025 - Present
<ul style="list-style-type: none">• Designed and developed a full online dance-workshop marketplace using React, Node.js, Express, and MongoDB, ensuring secure authentication with hashing.• Built features enabling users and dance organisations to create accounts, upload seminars, browse listings, and add events to their favourites.• Implemented search and filtering tools to help users easily discover workshops from multiple creators.• Collaborated closely with the client to refine requirements and deliver ongoing iterations, ensuring the platform aligned with their vision.		
Software Engineering Online Internship	Lloyds Banking Group	Oct 2025 (2 Weeks)
<ul style="list-style-type: none">• Delivered a mortgage calculator built with HTML, CSS, and JavaScript.• Presented the tool to stakeholders, gathered feedback, and improved functionality based on their insights.• Used Git version-control workflows to streamline collaboration, increasing team delivery speed by 30%.		
Front-End Engineering Online Internship	Skyscanner	Sep 2025 (2 Weeks)
<ul style="list-style-type: none">• Developed and shipped a React-based travel date-picker powered by Skyscanner's internal component library.• Customised user-experience flows to match product requirements and ensure smooth interaction.• Added automated tests to validate component rendering and improve reliability.		
Coding Intern	City, University of London	Sep 2022 – Oct 2022
<ul style="list-style-type: none">• Created a Java-based maze pathfinder that calculated the optimal escape route using algorithmic reasoning.• Developed a personal finance tracker that visualised spending patterns to help users understand their expenditure trends.		

EDUCATION

City, University of London	BSC, COMPUTER SCIENCE	09/2022 - 06/2025
-----------------------------------	------------------------------	--------------------------

KEY SKILLS

Technical Skills: Proficient in MS Office, HTML, CSS, and JavaScript, React, Node, Express, API's, MongoDB, Python

Other Skills: Effective leader and communicator, strong decision-making skills, experienced in risk management and data organization. Quick learner, adaptable, and dedicated to achieving goals both independently and within a team.

Languages: Lithuanian (Native), English (Native)
